

## Kekke lounge chair & ottoman *by Studio Piet Boon*

Comfort and contemporary design collide in Studio Piet Boon's Kekke lounge chair and ottoman. Unveiled at this year's Milan Design Fair, this luxurious piece is a reimagining of the brand's iconic dining chair but with more generous profile (lower to the ground and with a tilted-back seat) to make space for the ultimate lounging experience. Upholstered in soft leather or sumptuous fabric, and available in a range of exquisite new colourways, inspired by the tones of nature, this chair offers the perfect place in which to curl up with a book or put one's feet up after a long day.
