

"THERE'S NO BETTER PLACE TO RELAX AND RESET THAN FROM A BATHTUB"

## Baths

Though showers will always save on space, not to mention budget, there's just something luxurious about a bath. Promoting slow living in all its entirety, a dip in the tub is a reminder that sometimes we just need to slow down, reflect and embrace the joy in the everyday. But when it comes to choice of tub, it can be overwhelming. From free-standing to integrated, curved to rectangular and in some cases, feet or no feet, there's much to navigate.
